A PLACE FOR ALL CLUBHOUSE

The clubhouse – named The Foyer – at The Pointe has been conceptualised as the epicentre of its community. The Foyer is designed with the fundamental aim of bringing people together and will serve as the entry gateway. The building is designed to extend over the gate, serving as the vehicular and pedestrian entry into the community. The clubhouse is built as a linear two-storied building with functional spaces interspersed with areas for interaction.

The green landscaping at The Foyer is being designed to attract butterflies and birds that will naturally enhance biodiversity. For residents, coming home to such a luxurious and lush environment will immediately bring a sense of calm and tranquility.

ACTIVE & PASSIVE ZONES

The active green zone provides health and fitness with playing fields and outdoor gym equipment.

Relax at the cafeteria or enjoy a quiet and peaceful walk in our passive zone, lined with leisurely spaces to rest in.

LANDSCAPE PHILOSOPHY

The landscape design emphasizes sustainability, featuring native trees and flora to support the ecosystem. A central promenade divides the complex into north and south zones, while connecting green spaces for leisure, relaxation, and social interaction. Key areas, such as the entrance forecourt and confluence zone, are thoughtfully crafted with signature sculptures, a coffee point, and an amphitheater to encourage community engagement and a sense of belonging.

A PERFECT BALANCE

Every villa is designed such that its elevation is an aesthetic balance of modern classic architecture and contemporary minimalism. Sensitive combinations of mass and fenestrations give the villa a timeless composition that will blend well with the project landscape.
